# STONY PLAIN SUN.

VOLUME SEVENTEEN

STONY PLAIN. ALBERTA. THURSDAY APRIL 15, 1937

## ROYAL CAFE, STONY PLAIN.

**FULL-COURSE MEALS, 25c. Up.**  
FROM 12-2, and FROM 6-8.

Ice Cream, Soft Drinks, Confectionery. Fruit.

**L. M. LARSON, Proprietor.**

## FARMERS' MEAT MARKET.

FRESH MEATS OF ALL KINDS.  
DRESSED POULTRY.

CATTLE AND HOGS BOUGHT EVERY DAY IN  
THE WEEK.—HIGHEST PRICES PAID  
PHONE SEVEN, STONY PLAIN.

**Dryer than the Sahara!**

THE Sahara Desert has its oases — pools of refreshing water along the Caravan Route — but moisture in a telephone cable means trouble. Consequently, one of the many important steps in the making of telephone cable is the expulsion of moisture. Here a length of cable comprising twelve hundred telephone circuits (2,400 wires) is shown leaving one of the huge ovens in the Montreal plant of the Northern Electric Company, Limited, where a temperature of 275° F. is maintained under a vacuum which removes every perceptible trace of moisture from the cable. The cable is then wheeled into an air-conditioned chamber at the rear which is dryer than the Sahara Desert; here it awaits its lead covering which is applied in a hot plastic state under several tons pressure without the cable again encountering the natural atmosphere; it is then ready for use.

## COMMERCIAL PRINTING AT PRICES YOU CAN AFFORD.

**"HELLO, NEIGHBOR!" A 3-ACT  
COMEDY, AT KELLY'S HALL,  
ON FRIDAY, APRIL THE 16th.**

### Gagne—Laight.

A wedding ceremony took place on Wednesday, April 14, when Miss Agnes Ethel Laight, eldest daughter of Mr and Mrs George C Laight, became the bride of Mr Napoleon Oscar Gagne, only son of the late Mr and Mrs Napoleon Gagne, of Spruce Grove district.

### The Erco Lumber Co.

This new lumber company is now doing an extensive business selling lumber locally, as well as shipping it right thru to the City and as far south as Wetaskiwin. The company's limit is 14 miles south of Entwistle. The company has contracts for several million ft of lumber from the berth on which it is now operating, and has taken an option on an adjoining berth which is expected to cut over ten million feet.

### Meridian Lodge "At Home"

The Worshipful Master and Brethren of Meridian Lodge No. 129 A. F. and A. M., held a very successful "at home" on Friday evening last. The hall was comfortably filled, and everyone present had a very enjoyable time.

Among those present were:  
Dr R A and Mrs Walton  
Dr R M and Mrs Oatway  
Mr and Mrs A E Michael  
Mr and Mrs T R Scott  
Mr and Mrs A P Anderson  
Thomas Graden  
Mr and Mrs H Wolfe  
Mr and Mrs Jas Malloch  
Mr and Mrs J F Clarke  
Mr and Mrs D E Moyer  
Mr and Mrs E F Lewis  
Mr and Mrs W E H Lewis  
Mr and Mrs L G Sieber  
Mr and Mrs L M Larson  
Mr and Mrs John Trapp  
Mr and Mrs J H Lory  
Mr and Mrs Geo Oppertshausen  
Mr and Mrs Hy Oppertshausen  
Mr and Mrs W E Hayes  
Mr and Mrs Joe Mayer

## The Community Newspaper

Few people appreciate in anything like full measure the tremendous influence for good exerted by the country weekly newspapers of the western provinces in the communities they serve and the quality of the service rendered by the proprietors and editors of these weekly symposiums of world, national and local current events.

Whether realized or not, however, the fact remains and can be irrefutably established that the well-conducted and discriminately edited country weekly—and that means the great majority of them—fulfills an extremely important function in the town and rural district in which it circulates. Nothing else that the subscriber purchases can be bought to yield such value for such a small monetary consideration.

And not only in quantity of material does the subscriber receive great value for an almost infinitesimal outlay but the quality of the merchandise offered to the purchaser of the paper is an unparalleled tribute to the discernment, ability and integrity of the proprietor who shapes its course and determines its policies.

An analysis of the contents of the average issue of the mill-run of country weeklies in the west demonstrates that considerable discrimination is exercised in the selection of the news presented to their readers, that a high moral plane dictates the selection that is made and that service to the community of a high order is invariably maintained throughout their columns whether devoted to world events or to small local occurrences.

Partly because of this all-pervading tone permeating from the first paragraph to the last and partly because in many homes the local weekly is the sole printed purveyor of current topics no literature is more consistently and carefully read or with such close scrutiny, including the advertisements, than the country weekly newspaper.

Another factor which commends the country weekly to its readers and subscribers is the eminently sane outlook of its proprietor and editor in approaching the problems of the day—whether they be political, social, religious or economic. Their utterances invariably reflect a breadth of vision and spirit of tolerance so much needed in a world gone mad and at a time when too many turn aside to follow false gods or pursue unscrupulous theories and "isms".

Then, too, much of the extraordinary influence exerted by the country weekly upon its readers should be attributed to the liberal space devoted to plans which have as their objective some phase of community betterment or improvement of the town and district. In this respect owners and editors give much of their time and energy to worthy causes for which there is no recompense other than the satisfaction which comes from having assisted in the promotion of a beneficial project.

Alongside the more imposing and voluminous metropolitan daily which is "sufficient unto the day" for its clientele, the country weekly paper may appear comparatively insignificant, but the latter is picked up, read and re-read and its entire contents of news, editorial content and advertising is digested and re-digested for a week until the succeeding issue steps into the breach. And it is largely because of this assiduous and intensive study and reflection which the weekly newspaper inspires that it wields such an important influence on its readers.

The country weekly also can be counted upon for loyalty to its readers, subscribers and advertisers, for justifiable pride in the town and district which it serves and in so doing is worthy of support, in season and out of season, from the local merchants, the local board of trade, the local sports organizations, the local churches and the people of the district, for the local paper is a co-operative enterprise, even though privately owned.

Without the services of a sound, sane country newspaper, any community in hour to hour and many worthy local ventures would languish and wilt of inanition and without the whole-hearted support of the many individuals which make up the community the local paper would lapse into a decline and eventually inherit a lamentable grave.

The fact that the great majority of the country weeklies have survived the grueling test of a depression of unprecedented length and excessive severity—and the casualties have been surprisingly few—speaks volumes for the high regard in which they are held, perhaps often unconsciously, by the people they have served, and are serving so well and so tenaciously, despite great handicaps.

"Is ink so very expensive, father?"

"No, dear, what makes you think so?"

"Well, mother seems quite disturbed because I spilled some on the hall carpet."

Bicycles caused practically the same number of fatal accidents as privately owned automobiles in Great Britain in the last year.

## HOW'S YOUR STOMACH?

YOU lose vital nerve force if you allow your stomach to distress you. Acid stomach, indigestion, gas or biliousness and "constiveness" cause the blood to be poisoned and will eventually destroy health and vitality. A. Sanford Ave., N. Hamilton, Ont., said: "I suffered with my stomach for years. I was very little and that would cause distress. I grew weaker daily and suffered from headaches. My weight went from 175 to 135 pounds. I took Dr. F. J. Allen's Golden Medical Discovery and was soon able to eat normally. I gained in weight and strength and could resume my work. The 'Discovery' made a well person of me." Buy now!

## Not New To Eskimos

Natives Of Remote Island Have Always Had Social Security

Social security is centuries old to the primitive Eskimos of remote Munivak Island.

They provide for their aged and needy through "gift festivals" a German scientist, Dr. Hans Himmelfarb, disclosed after a five-months' study of the natives.

"All festivals are held mainly to exchange gifts, everyone making what he can to give away, even kayaks (skin boats) and 100-year long seal nets, thus showing his value to the community."

"The gifts are piled up and then distributed by the most respected man, to the old and poor first. This provides an economic minimum for all members of the community, since many suffer undeservedly, being totally incapable or unfortunate."

Apparatus has been developed by New York state scientists for taking full-length X-ray pictures of men and women in color. 2185

## Preservation Of Liberty

American-British Friendship Best Guarantee Of World Peace

Under the heading "hang together or hang alone," an editorial in the New York Daily News endorsed that part of Lord Tweedsmuir's recent speech at the United States naval academy in which the governor-general of Canada said:

"The American and British navies are united in the same purpose—the preservation of liberty and peace."

The News foresaw difficulties if an attempt were made to put a formal naval and military alliance between Britain and the United States through parliament or congress.

"We would hardly like to sew ourselves up in an agreement to help Britain fight Italy or Russia," it argued. "Britain wouldn't like to be tied up to us for some conceivable South American or Mexican war."

"But for the two of us to keep our informal friendship unflinchingly warm is only common sense . . . as long as we maintain the world's two most powerful navies, any nation will think a long time before picking a fight with either Britain or ourselves."

The editorial added that American-British friendship is not only natural, "but is also, as Lord Tweedsmuir says, the best guarantee of both nations' safety and the best insurance against another world war."

## WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to go

The liver should pour out thousands of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up and poisons go into the body and you feel sour, listless and tired.

A more bowel movement doesn't always get at the cause. You must get that water on the liver as well. It takes those good, old Castor Oil, Little Liver Pills and Little Liver Pills to make the bile flow freely. They do the work of a million bile salts and make the liver work. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 50c.

## Received Lloyd's Gold Medal

Admiral Evans Holds Rare Award For Gallantry At Sea

Admiral Sir E. R. G. R. Evans, who delivered his address as Lord Rector of Aberdeen University the other day, is the only man to have received one of Lloyd's gold medals for special gallantry at sea. He won it on the occasion of the Hong Kong disaster, when he dived into a heavy sea and swam with a life-line to the sinking vessel. Not content with that, he returned to bring an unconscious coolee to the small motor-launch, which had approached as near as possible. After that he dived in a third time to free the propeller from a piece of wire with which it had become entangled, reports the News of the World. He earned his famous title, "Evans of the Broke," when in charge of one of two destroyers which defeated six German destroyers off Dover in 1917.

## SELECTED RECIPES

### CRISP COOKIES

Temperature: 400 degrees F.

Time: 15 minutes.

2 squares unweetened chocolate

1/2 cup shortening

1/2 cup sugar

1/2 cup "Crown Brand" Corn Syrup

2 eggs, unbeaten

1/4 cup flour

1/2 cup Benson's Corn Starch

1/2 teaspoon vanilla

1/2 cup finely chopped nuts

Method: Melt the chocolate in the top of a double boiler. Remove from heat and add the shortening, sugar, "Crown Brand" Corn Syrup, eggs, flour, Benson's Corn Starch and vanilla, beating the whole mixture thoroughly, being sure the eggs are added one at a time. Spread the mixture off baking sheets which have been oiled with butter. Sprinkle with nuts and bake in a hot oven. Cut while warm. These cookies are very crisp and easily made.

## HOW TO OVERCOME ITCHING PILES

If you are annoyed with itching piles or rectal soreness, do not suggest the same or other kind of operation. Any itching, soreness or painful passage of stool, is nature's "alarm" and "prompt" treatment should be secured at once. For this purpose get from your local Firestone Dealer a box of Firestone's "Pile Remedy" and use it as directed. This formula, which is used internally, quickly relieves the itching and soreness and aids in healing the sore, tender spots in a few days. It is easy to use and does not cause any harm or irritation. To risk an operation when a simple remedy, which is so pleasant to use may be had at such a reasonable cost.

## Mahatma Gandhi

## Public Too Curious

Reported To Be Leading The Life Of

A Typical Villager

Mahatma Gandhi is now leading the life of a typical villager.

He has taken permanent residence in a hut on the outskirts of Shegaon village, seven miles from Wardha (Central Provinces). His wife and secretary live at Wardha, hence the latter goes daily to his master. The road to Shegaon lies partly through fields which become a morass during the monsoon, making communication difficult.

Nearly a hundred huts, some thatched, are scattered about the village. Gandhi's home, which is a tiled hut of mud, has an airy hall in the centre which serves as his study. A kitchen, storeroom and bath complete the home. At the side is a small stable for goats.

Gandhi has no program for the future these days aside from his daily schedule. The villagers attend his open-air prayers at dawn and dusk.

For years there has been a standing reward of \$1,000 for one pound of manufactured cotton-knoney.

A bud has the remarkable power to reproduce every part of a tree; stem, foliage, branches and fruit.

People Barred From Parts Of Windsor Great Park

The decision, reluctantly arrived at, to close to the public parts of Windsor Great Park near the Royal Lodge to secure privacy for the King and Queen is a lesson to people who have been indiscreet in their curiosity, comments a writer in the London Daily Sketch. The ruling may be relaxed later if conditions improve. The King and Queen like to regard Royal Lodge and the Great Park as a part of their private lives.

## The Final Stop

You need 40 feet to stop your car at 20 miles an hour; 73 feet at 30 miles and 115 feet at 40 miles. At 50 miles you will need 146 feet—and if you keep on climbing in speed eventually you will need only "five or six feet"—depending upon your height. Moreover, then, you will be stopped for good.

Bird nests are important export articles of the Malaysian islands. More than 3,500,000 nests of the edible swift have been imported to China in one year, for conversion into birds' nest soup.

Russia expects to increase its oil production 15 per cent. this year.

# Firestone

## Extra Values at NO EXTRA COST

No matter how much you intend paying for tires drive to your local Firestone Dealer and let him show you he can give you most value for your money. He has a complete stock of Firestone High Speed, Oldfield, Sentinel and Ground Grip tires that will give you the longest mileage at the lowest cost. Drive in and let him serve you.

# Firestone

## Educational Needs Of Canada Different From That Of Great Britain

"The fine old fortifying classical curriculum of Oxford and Cambridge, to which he confessed he was sympathetic, has no place in Canadian legislation, Lord Tweedsmuir, governor-general, told the opening meeting of the 76th annual convention of the Ontario Educational Association at Toronto.

Addressing a gathering of hundreds of teachers, trustees, inspectors and administrators, the governor-general said he had not been in Canada long enough to know the peculiar educational problems here. Before his term expired he hoped to have "something useful" to say.

But he knew that the old idea of higher education, where a young man engaged in "humane learning" until he was 21 and after that acquired the particular techniques needed for whatever profession he chose, could not apply in Canada.

"What we are concerned with in education is to enable youth of every class, including the poorest, to earn an honest living and at the same time to equip a boy for his life's work; to give him some background of education which will provide him with a wide perspective and a fund of utilitarian interests, and incidentally fit him to be a good citizen," Lord Tweedsmuir said.

That was the problem for educational authorities which must be faced with "common sense and a proper perception of realities." It was no good giving a boy a smattering of culture if he was going to starve; no good equipping him to earn a living and leaving his mind narrow and insensate.

"It has been much cherished lately in visiting various technical and commercial schools in Ontario to find that an honest endeavor was made throughout the technical training to preserve an element of what I call the humanities," he said. "That is one aid to a solution."

"The other may be found in the way in which the technical training itself is conducted. If it is regarded not merely as the acquisition of a certain number of rules of thumb, but as a piece of serious mental training, then you are introducing the spirit of the humanities into the vocational side. You are producing not only technicians, but men and women with individual organization should be, from the nature of things, more elastic than that in Great Britain. Schools must be organized without pedantry and with a due sense of realities. Authorities must be prepared to go beyond the schools."

The governor-general told the teachers their duties in large part were those of the pioneer. This had been brought strongly to him in visiting the drought areas in the prairies where he found many teachers "on slender salaries, gallantly fulfilling their duties and sharing to the full in the discomforts of the depression."

"We praise, and readily praise, the fortitude of the prairie farmers; let us not forget the fortitude of the prairie teachers," he said. "As for your profession in general, I do not think it possible to exaggerate its value."

### Attains Her Ambition

English Skating Champion Foretold At Ten Years

Miss Cecilia Colledge, who has won a world's skating championship at the age of 17, and who has been skating in Canada, is the daughter of a London West-end surgeon. Before 1925 she had never seen anyone skate, but after watching the British Women's Championship that year she decided on her life's ambition. Since then she has practised three or four hours almost every day, mostly on the London rinks during public hours, and when possible in Switzerland. In addition to her skating she is an accomplished dancer, swimmer and tennis player.

The total number of railway passengers carried in England during last November was over one hundred millions. The iron horse is not, by any means yet ready to rust on the scrap heap.

### Lag In Production

Russian Government Discloses An Alarming Condition In Farm Operations

The Russian Government disclosed an alarming industrial and agricultural lag for the first quarter of 1927 in its program designed to force production even beyond the point fixed by the second five-year plan.

The backwardness of the Spring planting campaign—about 315,000,000 acres behind schedule—alarmed the Government, and raised fears the plan, which ends this year, would not be completed on the scale designed as a celebration of the first 20 years of Soviet rule.

Planting for 1927 at the end of March should have reached a total of 328,000,000 acres, but a survey of the U.S.S.R. showed only 13,200,000 acres have been planted. In the corresponding period last year 54,400,000 acres had been sown.

Farmers claimed the cause lay in the backwardness of Spring but officials charged it was due to lack of preparation and carelessness, and was rapidly growing into a danger to the situation because of the shortness of the growing season in vital agricultural belts.

### Wonderful New Organ

One Of Recent Features Added To Paris Opera House

A "light" organ on a vast semi-circular panorama 85 feet high and 20 tons in weight is one of the many wonderful new features of the Paris Opera House, reopened recently in the presence of the president, M. Lebrun.

The opera house, which is still one of the largest and most luxurious places of entertainment in the whole world, has been entirely renovated and largely reconstructed since it was closed after the first last September.

The huge panorama which has been installed is made of steel, covered with asbestos and sheets of mica, and will reflect the sound into the auditorium without causing an echo. Divided into two parts, the panorama can be hoisted up rapidly by an electric crane.

All lighting effects will be automatically controlled by an electrician with a special observation post opposite the prompter.

Here he will be able to order the sun to set and cause soft moonlight to flood the "sky" behind the stage, which is so large that a moderately-sized theatre could be placed upon it.

### Rules Of Happiness

Asked for his rules of happiness in life, R. C. Smith, dean of Toronto advertising men, on his recent birthday, replied: "Do anything that's asked of you, and do it willingly; Slieve to do your duty always, and give your clients the full benefit of your knowledge and experience."

The tails of Russian squirrels are used to make camel's hair brushes.

### Initials Have Never Been Smarter!

Initials have never been smarter! And one also no smarter initials than these which take form quickly by simply embroidering a few single stitch flowers and French knots. Make blouses and handkerchiefs with your own initials in a two or three-letter monogram, while wearing a household linen may be just as personally marked this easy way. A single color, two shades of a color, or black with a color are all smart. In pattern 5782 you will find a transfer pattern of five complete alphabets, two 2-inch two 1 1/2 inch and one 1 1/2 inch; information on the correct placing of initials for monograms; illustrations of all stitches used.

To obtain this pattern for 20 cents in stamps or coin (coln preferred) to Household Arts Dept., Winnipeg Newspaper Union, 101 McDermot Ave., Winnipeg.

There is no Alice Brooks pattern book published

## Eminent Meteorologist Says The Climate Of Canada Is Steadily Growing Warmer

### Science Saves Fruit

X-Ray Being Used To Detect Fungus In Oranges

Examination by X-ray is practiced by California fruit growers to detect fungus in oranges. At East Pasadena the first machine built for this use has produced satisfactory results. The oranges are carried over a 100,000-volt X-ray tube by a conveyor belt on either side of which are windowed boxes inclined at 45 degrees. Testers peering through the windows see silhouettes of the passing oranges on a fluorescent screen. The sound, juicy oranges appear dark; those that are unripe, sour, rotten or granulated appear light and are thrown off the belt when the tester moves a handle. The lead used in the machine to protect the testers from the effects of X-rays brings its weight to a ton.

Last summer the research divisions of the Department of Agriculture conducted investigations to find out why some tomatoes decay faster than others and how grapefruit can be kept fresh longer while awaiting sale on the stands. It was found that the fungus which produces the decay of tomatoes after the fruit is harvested develops rapidly at temperatures ranging from 75 to 85 degrees Fahrenheit. This is held by the Bureau of Plant Industry to explain why so many commercial tomatoes harvested and shipped decay without refrigeration decay. As to the grapefruit, it is recommended that the fruit be pulled instead of clipped from the tree and immersed immediately in an eight per cent solution of borax. The cost of this treatment is only about one-half a cent for each 100 pounds of fruit, and the loss is reduced by two-thirds.—New York Sun.

### Using Roller Skates

Employees Of Tire Corporation Give Customers Snappy Service

Somewhat lost on 100,000 square feet of floor space in new and larger quarters, 18 employees of the Canadian Tire Corporation in Toronto have solved the problem of providing snappy customer-service by wearing roller skates. Alfred Stevens, 200-pound manager, conceded that he and a few others had provided customer-laugh as well by falling. But the experiment was such a success that 18 pairs of skates were ordered. They are the type used in roller-skating rinks.

Cobwebs are made by a tiny spider, but because it seldom is observed at work, many people believe the webs to be formed only of dust and lint. "Cob" is an old English word meaning spider.

It will be pleasant news to those who don't like long periods of sub-zero temperature to learn that Canada's climate is continually growing warmer. This information comes from no amateur or optimistic prophet but from one of the world's most eminent meteorologists—Dr. Moses H. Cotsworth, of Vancouver, and London.

In No. 7 of his well-known scientific booklet, prepared at the request of the British Association of Science, Dr. Cotsworth has much to say on this subject. The booklet, entitled "Geology's Latest Hinges on Climate Change," is a brilliant summary with numerous graphs, charts and maps. Dr. Cotsworth's contention is that creation is continuous. This continuity is evidenced by climatic changes and evolution which mainly through the ever-continuous glacial period, have variably formed, rested and renewed the surface of the earth in most countries and latitudes.

Dr. Cotsworth shows that varying winds, retreat of glaciers, Polar currents, earth transformations, trends of ocean currents and other agencies mainly are responsible for changes of climate. It is interesting to note, from information gathered over 15 years, that the recession of the main Alaskan glaciers continues, bringing a warmer climate to that country and to the whole of North and Western Canada. This recession is extending across the Canadian and United States Rocky Mountains, and combined with it are definitely warmer winds and sea currents. It thousands of years before Canada might enjoy a semi-tropical climate, like Bermuda, but it will be a comparatively limited period before we have an all-year climate not much colder than Northern Scotland, he says.

There is much useful information in this booklet, mainly published to increase the teaching of geology in the schools. It treats of changes in earth surface, of reptiles, mammals, and man, the age of the first being placed at 40,000,000 years and the last at 1,000,000. From the start of the cooling of the earth some 135,000,000 years ago, the sleeping giant of pre-history is revived as well as the outstanding events of its majestic life history during the long geologic ages. On this is based the argument that climate is a matter of continuous change.—Ottawa Journal.

### Has Far-Reaching Effect

British People Find Rearmament Increases Cost Of Living

There does not seem at first sight to be any connection between guns, ships, explosives and the cost of living but there is. British people are finding that not only have they to pay heavily for rearmament but they have to pay more for their ordinary requirements.

The price of steel is to go up on May 31 by agreement with the Government, and this is going to increase the cost of automobiles, steel for housing and other constructional works. Therefore, the cost of cars, home rents and of new houses will go up.

Enormous quantities of textiles are being bought for uniforms, army blankets, etc., with the result that wool has gone up 40 per cent. To fill orders not only for Britain but all countries now embarked on rearmament programs. The result is the public is having to pay more for suits, overcoats, underwear, shirts and blankets.—St. Thomas Times-Journal.

### Scores Anyway

A good story about Sir Thomas Beecham is told in a recent issue of the Daily Sketch. When a Continental impresario objected to "Figaro" being conducted without a score, amendment was promised, and next time the score was on the desk. "Excellent, and much improved by the score," was the verdict. "Thanks," said Sir Thomas, "but that score was Parsifal's upside down. So you see I score anyway."

### Blood Transfusion Institutes

Have Been Set Up In Spain By Loyalist Government

Powerful weapons for the "new war" are being perfected on the battlefields of Spain, a "testing ground" closely watched by military experts of all nations.

While military men are thinking up new ways to kill, army surgeons are keeping abreast of them in the matter of saving life. One of the most outstanding, and least-heard-of, development of the Spanish civil war is the blood transfusion institutes set up by the loyalist Government.

Under the direction of Dr. Norman Bethune, Montreal surgeon, the Madrid institute has put the war-time blood donating on a mass production basis. Already Dr. Bethune has found it possible to conserve human blood for two weeks and the loyalists have developed a system of refrigerated army trucks for rushing bottled blood direct to the battlefield for transfusions in the front lines.

In the last three months, in Madrid alone, more than 46 gallons of blood have been donated by persons whose names are on a list of 2,000 donors, and 193 transfusions made. This is being duplicated at other strategic spots in loyalist Spain, providing much research materials for hospitals in time of peace.

### Urges Fixed Easter Date

Toronto Minister Has Suggested Fixed Sunday In April

"Why not set Easter for the third Sunday in April, and follow it with a public holiday on Monday?" asked Rev. Dr. C. A. Williams at Howard Park United church, Toronto, pointing out that it was difficult to get the Easter spirit when it came so early in the year with snow on the ground and a raw wind blowing from the north.

"The present arrangement of jumping all over the calendar is bad for church and school, for trade and travel. It frequently spoils what ought to be the happiest season of the Christian year," said Dr. Williams.

"We talk a lot about the Christmas spirit," Dr. Williams added. "Why then do we think so little about the Easter spirit?"

### Safety In The Air

Proportion Of Accidents Small Compared To Passengers Carried

Of the 200,000 passengers carried by British air companies last year in Britain and overseas, only 12 were killed—one passenger in every 16,666. Statistics for foreign air lines are scarcely less impressive. Day by day, across the Old World and New, across inaccessible mountain ranges, arid desert tracts, and wide oceans, the machines hum on their normally uneventful paths. Contemplation of the millions of miles safely traversed (Imperial Airways alone expect to cover 8,000,000 miles this year) helps to keep a sense of proportion in the face of such occasional disaster as attends all human progress.—London Daily Mail.

Taken For Granted

A certain judge attended a function and left his hat and coat in the cloakroom. The attendant, who knew him by sight, did not give him a ticket.

When the judge left he was given his correct belongings.

"You did not give me a ticket when I came in," he said, "so how do you know these things belong to me?"

"I don't," replied the attendant. "I only know that you handed them to me."

### Speaks For Itself

It looks like an ordinary cigarette box and it is an ordinary cigarette box, but as you open the lid, the box actually speaks and you hear a voice ask, "Will you have a cigarette?" This is without doubt the most fascinating and intriguing novelty of the century.

## WORLD HAPPENINGS BRIEFLY TOLD

Members of the royal commission inquiring into Canadian penal conditions announced there would be no more public hearings.

Lethbridge will have a new 700-acre airport ready for inauguration of the trans-Canada air mail some time this summer.

In its first four months of operations, 5,441 loans aggregating \$2,011,158 have been made to property owners under the home improvement plan.

C. L. Coggon, railway mail clerk, Moose Jaw, obtained 100 per cent. in a sortation examination held by the post office Feb. 26, it was announced in the post office weekly bulletin.

President Roosevelt intimated he intends to appoint Mrs. J. Borden Hartman, New York and Washington society woman, United States minister to Norway.

Winnipeg city council has voted \$1,500 for coronation celebration expenses. Half the amount will be devoted to four pageants representing various sections of the British empire.

Dr. Halbert L. Dunn of the United States census bureau told the conference of state health officers that one-third of all persons killed in automobile accidents are tourists far from home.

Increasing revenues to the railways from the expanding Canadian mining industry would bring constant reduction in annual railway deficits, Hon. Eugene Paquette (Cons.-Lauren) predicted in the senate.

## Was Made Welcome

Governor-General Has Warm Friends in United States

When John Buchan was here in 1934 speaking at the opening of the great new library of Columbia University, he was welcomed in his own person and for his varied contributions, in both the written and spoken word, and especially to the English speaking youth of the world. He has returned in an official capacity with a title which it is difficult for others than Scots to frame or pronounce aright.

The Scots have a word for the most cordial hospitality that can be shown a guest. It is a welcome into the "ben"—that is, into the best room of the house. The President in bidding this distinguished visitor to come "ben the White House" has shown him the most cordial welcome that the people of the United States can offer a visitor engaged in what he has himself called the "noble merchandising of civilization."—New York Times.

## HELP WARD OFF 'FLU THIS WAY

"Keep resistance high, organs clear and active, blood pure," say doctors

Don't let 'flu get you down... beware of the epidemic that is raging! Keep on the job. Help ward off infection by keeping your system free from harmful wastes and poisons. That's why you need a powerful, natural, scientific action against your resistance. Free from harmful wastes and poisons, your system can ward off infection by keeping your system free from harmful wastes and poisons. That's why you need a powerful, natural, scientific action against your resistance. Free from harmful wastes and poisons, your system can ward off infection by keeping your system free from harmful wastes and poisons. That's why you need a powerful, natural, scientific action against your resistance.

## MANY-OCCASION FROCK DE LIGHTS TOT WHO ADDRESSES PRETTY CLOTHES

By Anne Adams

All dressed up with oh—so many places to go, is the cunning youngster who wears Pattern 4301. She'll wear it to school (provided it's made of a sturdy tub cotton) and even to a party when stitched up in a dainty fabric! Mother knows the saucy touches that delight a small girl's heart, and any tot will dote on puffed or flared sleeves, a "classic" Peter Pan collar, dainty ruffles and a skirt that flares out gracefully above chubby knees! And all this perfection is easy as can be to cut and stitch, for the clearest of detailed directions are included. For fabric—why not dotted swiss, percale or dimity for "everyday"—and a crisp taffeta for parties!

Pattern 4301 is available in sizes 4, 6, 8 and 10. Size 6 takes 2 1/2 yards 36 inch fabric and 1 yard lace. Illustrated step-by-step sewing instructions included. Send twenty cents (20c in coin or stamps (coin preferred) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number, and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

## Estimated By James Watt

Inventor Worked Out The Formula For Horse Power

In James Watt's scrapbook, which is now in the Birmingham Reference Library, appears under the date of February, 1782, his detailed computation of horse power, based upon the experiences of Wrigley, his millwright. At that time horses were employed to drive mill machinery, and Watt estimated that the average cart horse developed 22,000 foot pounds of work per minute. Anxious to give good value to the purchasers of his steam engine, Watt, in using the term "horse power," increased his estimate by 50 per cent. and thus it came about that the 33,000 foot pounds per minute formula was evolved.—Industrial Britain.

The humpbacked camel has a spinal column as straight as that of any other animal.

## Habit Soon Grows

Although People Start Amateur Photography in Small Way

What's a minibus? It's a bug which bites you and makes you one more member of a vast army of minicameras (cameras or candid camera to you) enthusiasts.

The menace of the minibus is its subtlety. Minicameras are so small and comfortable in the palm of your hand, so quick to catch a picture when the subject isn't looking, and some may be had for a trifling sum. And they're good, too. So, you say you'll buy an inexpensive one, just for the fun of it. Of course, "you'll never get serious about it." But when the minibus bites, and the infection spreads through your bloodstream, you realize you should have one of the real, professional cameras, the kind that cost from \$110 up. They have fast lenses, lightning shutters, and besides, if you're going to make a hobby of photography you owe it to yourself to do it right.

So you buy the more costly camera. And now the minibus has you for fair. You learn that to take pictures properly the exposures must always be right. Hence you need an exposure meter. Since it will save you from wasting film you regard this as an economy. Then you "just have to have" a telescopic lens, because many of the best "shots" must be taken from a distance, like birds, animals and good-looking blondes. And now you are well infected—and ready to discover that you haven't a nick in the available assortment of gadgets, what with extra fast lenses, special view-finders...

Are you dismayed? Not at all. You immediately get out pencil and paper and begin to figure how...? That's the worst of the minibus!—New York Post.

## A Western Story

Prize-Winning Book By Kathleen Redman Strange Deals With Farm Life

The prize-winning book, with the West in her eyes, which under the title "A Modern Pioneer," recently won for its author, Kathleen Redman Strange, the thousand dollars offered by George J. McLeod Limited of Toronto and the Dodge Publishing Company of New York, with the cooperation of the Canadian Authors' Association, is scheduled to appear on the market this month.

Mrs. Strange is the wife of the internationally known grain expert, Major H. G. L. Strange and is already well-known to the reading public of Canada for her stories and articles which have, from time to time, appeared in our magazines and newspapers. Her book should be looked forward to with special interest, since it describes in an intimate and lively fashion, every-day life on a typical prairie farm. It tells particularly the story of the farm women, in whose struggles and triumphs, hopes and disappointments, Mrs. Strange herself shared for ten years. Her book is a fitting tribute to the splendid courage and endurance of the women of the farms, to whom it is dedicated.

One of the judges, Dr. Pelham Edgar, says of the book, that it is not only admirable as literature, and as a personal record, but that it should prove of practical value for intending settlers, since the conditions depicted, though actually set between the years 1920 and 1930, are much the same to-day and cover both boom and depression periods in prairie life.

It is interesting to note that out of the 174 manuscripts received in the competition, on many subjects and varied localities, that a story of Western Canadian prairie life should have been chosen. It can be said to be an indication of the interest taken in the West, in the people and their problems.

## Japan Buying Iron

Has Purchased Construction Machinery Used At Boulder Dam

Japan, urgently needing steel in her military and industrial expansion, is buying construction machinery used in building Boulder dam. The National Court, chartered steamer, took 450 tons of machinery from Los Angeles harbor, bound for Yokohama and the steamer City of Los Angeles started for the Osaka junkyards carrying 6,000 tons of scrap iron.

## SUNDAY SCHOOL LESSON

APRIL 18

THE EFFECTS OF ALCOHOLIC BEVERAGES

Golden text: At the last it biteth like a serpent. And stingeth like an adder. Proverbs 23:32.

Lesson: Genesis 13:13; 19:28-29; Deuteronomy 32:31-33; Proverbs 23:29-32.

Devotional reading: Isaiah 51:1-14.

Explanations And Comments

Destruction Befalls The Wicked Cities of Sodom and Gomorrah. Three weeks later we shall take up the life of Abraham. To-day we have a selection from Genesis which gives the account of Abraham's separation from his nephew Lot, owing to the fact that the land where they were was not fertile enough to support the great flocks and herds that each possessed. Lot chose the rich, well-watered plain where were the cities of Sodom and Gomorrah, whose citizens were noted for their wickedness. They were "wicked and sinners against Jehovah exceedingly," or, as Moffatt translates our first verse, "the men of Sodom were vicious, they sinned openly against the Eternal."

Lot was willing to overlook the vices of the people of Sodom for the sake of the material advantage he expected to reap, and he pitched his tent there. But no one could live among the people of Sodom without suffering from their corruption. When the doom of the cities of Sodom he escaped to Zoar, among the plain farther away. Then Jehovah raised sulphur and fire from heaven on Sodom and Gomorrah, sweeping away these towns and all the Jordan basin, with all the inhabitants of the towns and whatever grew on the ground (Moffatt's translation).

Shun Intoxicating Wine, Proverbs 23:31, 32.

So look not on the wine so red, That sparkles in the cup;

It glides down smoothly at the first

But in the end it bites like any snake.

It stings you like an adder

—(Moffatt's translation).

Keep away from temptation. "Critics judge of wine, among other indications, by the color of it; sometimes they, they say, look so well that it even says, 'Come and drink me'." (Matthew Henry). "Not only the sting of the serpent, but the subtlety of the serpent is in the wine. The deception lies in the fact that the habit of drinking will become confirmed before you know that it is enslaving you. Every glass of liquor increases the desire for another glass. Take heed of the bait, for fear of the hook."

## Retirement Age Fixed

Retirement ages for officers of the Royal Canadian Mounted Police have been fixed in amendments to rules and regulations of the force published in the Canada Gazette. Retiring age of the commissioner will be 62, his deputy 61 and all other officers 60. The fixing of the retirement ages is understood to be intended to speed up promotions within the force.

**Don't Let Foods Stale**

Foods that ordinarily stale quickly will stay fresh and tempting as surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

## AERIAL ATTACK IS MADE AGAINST BRITISH VESSEL

London.—The destroyer Gallant sped to the Spanish insurgent island of Mallorca to present an imperative demand for explanation of a series of attacks against the destroyer Gallant.

There were indications the government later would make strong representations to General Francisco Franco at his Salamanca headquarters.

Insurgent war planes which apparently came from Mallorca, dropped 15 bombs alongside the Gallant in two attacks off the eastern coast of Spain. They were finally driven away by the destroyer's anti-aircraft fire.

The Spanish Valencia regime made a new charge that German warships were aiding insurgent vessels off Spain and patrolling areas "where their presence is not justified" by the plan of the European neutrality patrol. (Germany in the past has denied similar charges).

Interference with the British freighter Thorpe Hall added to official impatience. The Thorpe Hall first was molested in the Mediterranean, and again in the Bay of Biscay.

Three British destroyers conveyed her into the Spanish government harbor of Bilbao after steaming between the insurgent warship Almirante Cervera and the Thorpe Hall.

## Satisfied With Bread Prices

British People Glad Farmer Getting More For Wheat

London.—Rises in the price of bread and flour contingent upon the spectacular comeback of wheat in world markets is accepted philosophically in Britain.

The general opinion is that the price the farmer is getting for wheat is no higher relatively than the increase in his cost. It is also felt the advance will raise the purchasing power of farmers the world over, thus tending general stimulation to recovery.

"It is worthy of note," says the Morning Post, "that at no time during the slump has the price of bread fallen much below 14 cents per four-pound loaf, compared with 11 cents in July, 1914, whereas the price of wheat during the whole of the five years 1931-35 was substantially below the pre-war level."

"Thus it is the manufacturer and distributor, not the farmer, who has been reaping the benefit of higher prices paid by the consumer."

## King's Birthday

Will Be Celebrated In Canada On June 9th

Ottawa.—The birthday of George VI. will be celebrated in Canada, as in Britain, on June 9, the governor-general-in-council has decided. Word to that effect was communicated to the lieutenant-governors of the provinces.

While His Majesty was born Dec. 14, the example of his grandfather, Edward VII., is being followed by celebrating the monarch's birthday in the summer season, even where it occurs in winter, so that the public may better enjoy the holiday.

The birthdays of the last two monarchs, George V. and Edward VIII., were celebrated on their natal days, June 3 and June 23, respectively.

## Atlantic Air Service

United States Has Completed Arrangements With Britain

Washington.—The United States completed arrangements with three English-speaking nations for commercial air service across the Atlantic ocean.

J. Monroe Johnson, assistant secretary of the commerce department, said agreements had been reached with Canada, Ireland and Great Britain under which giant flying boats will speed passengers and mail between New York and London, with stop-over in Canada and Ireland.

## Election For British Columbia

Date To Be Announced Shortly States Premier Pattullo

Victoria.—The Liberal government of Premier T. D. Pattullo will go to the British Columbia electorate this spring, the premier announced.

Stating the date would be fixed before April 22, Mr. Pattullo confirmed long-felt assurance that an early poll was in prospect. A June date is generally considered probable, with late May a possibility.

"The actual date of the polling has not been set," said the premier. "But I know the public is anticipating an announcement shortly, so I can tell you the date will be fixed before April 22."

British Columbia will enter a general election campaign with the prospect of having even a greater number of candidates than the 210 who contested for 47 seats at the last general election in November, 1935. Parties which have announced they will contest all or a majority of constituencies are the Liberal government party, Conservatives, Social Constructive opposition, Co-operative Commonwealth Federation and Social Credit League. In addition there are in prospect various Independents, Labor, Socialists, Communists and others.

## New Governor Appointed

Robert Irwin, New Governor-General Of Nova Scotia

Ottawa.—Robert Irwin, Shelburne, N.S., has been appointed lieutenant-governor of Nova Scotia. Prime Minister Mackenzie King announced. He succeeds Hon. Walter Covert, appointed in 1931.

There is no fixed term of office for lieutenant-governors, although it is usually five years. Mr. Irwin will assume office May 1.

Mr. Irwin was born in 1865. After receiving his education at the Shelburne Academy, he entered the lumber business, in which he has since been engaged. In 1894, he married Mary Prescott McGill.

He entered the Nova Scotia legislature in 1906 as the member for Shelburne county which he continued to represent until 1925. From 1917 until 1925 he was speaker of the legislative assembly. For the past three years, Mr. Irwin has served as a member of the old age pensions board of Nova Scotia.

## Radio Licenses

Over A Million License Fees Collected Last Year

Ottawa.—Some persons prosecuted for non-payment of radio license fees pay quietly and others go to their members of parliament, Transport Minister C. D. Howe told the House of Commons.

He was answering a question by Gordon Graydon (Cons. Reel), who thought more notice should be given radio-owners before prosecuting.

Mr. Howe said air radio set owners received two written notices and a personal call before they were prosecuted. Besides there were notices broadcast over the air when license fees were due.

"We collected over 1,000,000 license fees last year," he said. "The net revenue after collection cost was \$1,900,000. We prosecuted about 2,000 cases and of these about 1,500 paid quietly while the other 500 went to their member of parliament."

## Abandon Scrip Venture

Alberta Prosperity Certificates Will Be Redeemed

Edmonton.—Scrip venture of Alberta's Social Credit government has been abandoned and it is expected the \$12,000 of outstanding prosperity certificates will be redeemed within the next two weeks.

Provincial Treasurer Solon Low had been abandoned. No scrip had been issued, however, for several months and none had been in circulation since a large percentage was redeemed by the government last autumn.

The prosperity bonds were issued last August in \$1 denominations by the government of Premier Aberhart with the hope of increasing purchasing power of the Alberta people. Certificate holders were to affix a special one-cent stamp each week.

## PARIS EXPOSITION QUEEN

When the Paris exposition opens in May, Mile. Jacqueline Jacowlew, charming Parisian brunette, will reign as Queen of the Show.

## Constitutional Debate

London Daily Herald Comments On Privy Council Judgments

London.—The diplomatic correspondent of the Daily Herald, commenting on constitutional debate in the Canadian House of Commons, says:

"What disturbs Canadian opinion is not merely the bar against Dominion legislation on social matters. It is that in a number of recent judgments the privy council has tended to change the whole character of the constitution by interpretations which increase the powers of the provinces and restrict those of the Dominion."

The House of Commons at Ottawa debated the recent judgments whereby the privy council found ultra vires a number of the reform measures passed during the last Bennett administration.

## Hudson Bay Railway

Last Capital Expenditures Appear In Estimates This Year

Ottawa.—Last capital expenditures incidental to construction of the Hudson Bay railway appear in this year's estimates, Transport Minister Howe told the House of Commons.

He said an item of \$71,500 chargeable to capital was for ballasting, ditching, land purchase and other objects. It was the last capital expenditure, as after this year the railway would be considered completed and further expenditures charged to maintenance.

## BROTHERS IN BLOOD AND ARMS!

Here is one of the first pictures ever released of General Francisco Franco, seated, chief of the Spanish Fascist forces, and his brother, Nicolas Franco, who serves as general secretary for the Fascists at their headquarters at Salamanca.

## Would Boycott Doukhobors

Farmers In B.C. Protest Against Recent Damage To Schools

Nelson, B.C.—A resolution calling for the boycotting of Doukhobors throughout Slokan valley was approved at a meeting of 175 farmers at Winlaw, 15 miles northwest of here. The meeting was held to protest the wave of burnings and a bombing which destroyed or damaged 10 schools or halls in this district recently.

More extensive steps against Doukhobors were approved in a number of other resolutions passed at the meeting. The resolutions will be forwarded to Premier T. D. Pattullo.

The other demands ask enforcement of a curfew law against the Doukhobors, their exclusion from public works and relief, expropriation of their property by the government, their isolation on government reserves, and seizure of their chattels to pay for the damage caused in the recent outrages.

Effective protection against further damage also was demanded.

## Rust Resistant Wheat

Several Promising Varieties To Be Multiplied This Year

Winnipeg.—Several promising varieties of rust-resistant wheat developed in recent years by western Canadian plant breeders may be selected for preliminary multiplication this summer, it was indicated at the National Research Council meeting here.

Reports were drawn up by committees of plant breeders and cereal chemists. They stated western Canada is well suited for production of sunflowers, oil from the seeds being as satisfactory as olive oil for eating purposes.

Sunflower seed oil has possibilities as a substitute for higher-priced oil in light-colored paints, the reports stated. The meeting also considered prospects of taking oil from tame and wild mustard seed.

An impressive fax program was outlined in an aim to develop better varieties to guard against disease while producing a better yield and oil quality.

## Loans In Housing Plan

Total Of \$2,991,158 Already Made To Property Owners

Ottawa.—In its first four months of operations, 5,441 loans aggregating \$2,991,158 have been made to property owners under the home improvement plan, Hon. C. A. Dunning, minister of finance, announced. The plan went into operation the middle of November.

In the two weeks ended March 15, 697 loans totaled \$284,202.

The four months total was divided among western provinces as follows: Manitoba, \$87,271; Saskatchewan, \$44,764; Alberta, \$196,542; and British Columbia, \$246,593.

## NO ADDITIONAL AID TO BE GIVEN WAR VETERANS

Ottawa.—Canada's annual expenditure on behalf of war veterans, amounting to about \$60,000,000, and which has cost more than \$1,000,000,000 since the war, will not be increased by payment of relief to non-pensionable unemployed ex-soldiers.

Hon. C. G. Power, minister of pensions and national health, himself a veteran and one-time pensioner, answered with a categorical "no" a recommendation for supplementary payments to unemployed veterans made in a report of the war veterans' assistance commission, when his estimates were before the house.

At the same time he announced the government's intention of establishing across Canada "Workshops Limited," voluntary committee work that had been very successful in Montreal, to assist the young war veterans in getting re-established in gainful employment.

These organizations would be administered by prominent citizens and would be designed to enlist the sympathy and co-operation of people generally in getting war veterans back into occupations that would enable them to provide for themselves.

After an all-day discussion the last of Mr. Power's pension estimates were approved. At the end Conservative leader R. B. Bennett made a plea for the unemployed war veteran and Mr. Power said a permanent policy would be considered. During the summer he would ask ex-service men's associations to make suggestions. Meanwhile he would have sufficient money and authority to care for exceptional cases.

In brief the recommendation of the war veterans' assistance commission was that unemployed ex-soldiers, who served in the actual theatre of war and who are not otherwise being cared for by the department of pensions, would be paid additional sums up to \$5 a month for single men and \$10 for married men, to bring the monthly relief they were receiving up to the relief standard set by the department, that is at the rate of a 30 per cent. pension.

## Estate Of Lady Houston

Proven To Be Much Smaller Than The Popular Belief

London.—Lady Houston, eccentric millionaire and imperialist, left an estate valued at £1,528,082 (\$7,640,415). It was shown when contents of her will were made public.

The estate was much smaller than had been popularly guessed. At the time of her death last Dec. 29 it was unofficially estimated she was worth \$25,000,000.

The will was made March 20, 1930, leaving everything to Miss Hoare, aunt of Sir Samuel Hoare, first lord of the admiralty. However, Miss Hoare died March 8, 1936.

Consequently the estate will go to various relatives, including a sister of Lady Houston, Mrs. Florence Wrey.

The government benefited by death duties of \$3,454,604, which have been paid.

Sir Robert Houston, wealthy ship-builder, died in 1926, leaving an estate of \$35,000,000 to his widow. Lady Houston's estate did not include other assets in Jersey, Channel Islands, of which the value was not given in figures published.

## Recover Bodies

Searching Party Reaches Crashed Plane In Arizona

Phoenix, Ariz.—Captain Horace Moore, of the Arizona highway patrol, reported a searching party had reached the crashed Douglas airliner in the mountain fastnesses 20 miles southeast of McHenry and that bodies of the eight passengers were recovered.

Two bodies were thrown clear of the ship, Moore said he was advised. The other six burned.

Moore said his information came from A. P. Andrews, highway patrolman. He said Andrews told him the plane pancaked into the mountain-side and burned. 2198

### "Hello, Neighbor!"

Tomorrow night, April 16th, is the date for the presentation of that three-act comedy, "Hello, Neighbor!" The play is to be given in Kelly's Hall, and promises lots of fun for those who attend. The show is being sponsored by the Stony Plain Walther League, and opens at 8 p.m., with the price of admission at a low figure.

### Instituting a Poll Act.

Wider powers for the Minister of Municipal Affairs are provided in a bill to amend the Municipal District Act. It was introduced by Hon. Lucian Maynard, Minister of Municipal Affairs.

The measure provides power for a municipal council to impose a poll tax of not less than \$4.00 on persons who are gainfully employed and have not been so assessed on the assessment roll.

Another section empowers municipal councils to acquire land and construct dams for stock water ing.

## The World of Wheat.

By H. G. I. Strange, Director Research Department,  
Searle Grain Co. Ltd.

An international economic battle for wheat markets will some day (perhaps soon) take place.

The contestants will undoubtedly be Canada, Argentine, Russia, Danubian countries and Australia. Which exporting country will be able to increase its wheat acreage? Which will be forced to decrease acreage? And which will be able to hold the acreage they now have?

The country which can produce the highest quality at the lowest cost will win; others will lose.

The harsh truth is that it is much more necessary for Canada to keep her present acreage in wheat than it is for any of the other countries.

The Argentine has corn, flaxseed and cattle as substitutes.

Australia has mutton and wool.

The Danubian countries have corn, pork and tobacco.

Russia has a large population, needing more foodstuffs.

Canada alone has no substitute product for export which she can grow on any substantial part of her 24 million acres now in wheat.

Western Canada, therefore, somehow, must improve the quality of her wheat, and bring down the cost of production. Can she do this? Yes! I for one believe she can, provided the Dominion Government will assist the West, even more than it is doing now, along sound, constructive lines.

censes may be procured at The Sun  
Office.

## Landmark in Advancement.

The lively performance of the new 6-cylinder high compression, valve-in-head engine developing 85 h.p., the comfort of new all-silent bodies of uni-steel construction, and the attractiveness of new speedline styling are three principal characteristics of the Chevrolet Sixes for 1937. The new cars have been completely redesigned in chassis and body. This becomes apparent both to the casual observer and the man who takes the wheel; in the general appearance of the cars, with their distinct departure from previous style designs, and in the pppy, confident performance resulting from the application of Chevrolet's engineering genius to the problems of horsepower-weight ratio, safety construction, economy of operation, and luxury of appointment. The well-planned 1937 car with its silk smooth engine, is a landmark in Chevrolet's constant advance.

# Don't gamble with Weak Yeast!

**BAKE WITH ROYAL**  
—always full strength

**I HATE THAT OFF-TASTE!  
I WISH I'D USED ROYAL**

**Each cake of Royal is protected by an air-tight wrapper**

REALLY delicious bread demands an absolutely pure yeast—one that's full strength and pure. Otherwise, you run the risk of spoiled dough—very heavy gray texture, a sourish taste and smell.

You can always be sure of Royal Yeast. Every cake comes sealed in an air-tight wrapper—secure against contamination, its full leavening power assured. And Royal is the only dry yeast that has this special protection.

7 out of 8 Canadian housewives today insist on Royal when they bake with a dry yeast. They know it is reliable. For fifty years Royal has stood for highest quality.

Be sure to ask for Royal when you buy dry yeast. Don't risk baking failure with weak inferior yeasts.

**Send for FREE Booklet**

Standard Brands Ltd.

## U.S. Air Base

To Set Aside 900 Acres Near Fairbanks, Alaska  
President Roosevelt set aside 900 acres near Fairbanks as a prospective site for the United States army's proposed \$10,000,000 Alaskan air base.

An exclusive order prohibiting settlers from entering the area said the land was being "reserved for use of the war department for military purposes." Army sources, however, described the site as a possible location for the new base.

Keep on plugging. Remember the first olive you succeed in fishing out of the little loosens up the others.

The vitamin C in strawberries is not destroyed by freezing

## THE YELLOW BRIAR

A Story of the Irish on the Canadian Countryside

By PATRICK SLATER  
By arrangement with Thomas Allen, Publisher, Toronto.

### CHAPTER III.

Jack Trueman's dog was a black and tan collie with a bob-tail. His was the general purpose breed of a drover's tyke; and he was all dog. Jack claimed to own the sharp-eyed, self-reliant fellow—but that was a matter of opinion, merely. In the dog's way of looking at things, Rover owned Jack Trueman; and Trueman—

he owned me. When a smart, clever dog has something of his very own, you understand—say a smelly bone or an unruly boy—naturally he thinks highly of his own property. And he puts up with the smell of his own bone and the kicks of his own boy as one of the inconveniences of proprietorship, just the same as you and I put up with taxes.

Rover liked, at times, to have his boy throw sticks for him; and, of course, sticks can not be thrown if they are not fetched. But he only fancied that sort of thing in moderation. When the sport ceased to amuse him, he would cock his leg against a post, and then run away on business of his own. This was clear evidence, you will agree, that Rover was the chief executive.

Jack Trueman had not bought the dog; nor had he been given the dog. One day, Rover had left the drover's team he was looking after, and had dropped in, casual-like, to inspect the alley at the side and the stable in the rear of the Tavern Tyrone. He fancied the look of the place and the smell of the slop bucket. Offhand, he decided he would like to own a boy who lived round an interesting place like that. So the two of them struck up a bargain on the spot—at least they thought they did. There was a mutual misunderstanding so complete that things worked out all right.

One June day, we were down to the foot of Berkeley Street to see a double hanging; and that surely was a glorious well-filled day. There was a high stone wall clear around the prison which stood close to the bay shore; and the Fair Grounds lay open to the west. Two men, Turney and Hamilton, were to be hanged on a Trestle morning. To give the public a tidy view of the drops, both before and after taking, a double gallows had been built facing the Fair Grounds and high on top of the prison wall.

Before the early risers were abroad, hundreds of heavy farm carts and lumbering wains came creaking into town with their loads of merry, holiday-making country folk from far and near. Along the muddy roads came also bands of staid farm lads, facing stoutly on foot, with sticks in hand and bag on back, stepping down 30 miles or so to see the doings. Two men were to be killed by the law in the morning as an example to the public; and the schools throughout the district were closed that the children might benefit by so valuable a lesson in morals and good living. That day the taverns of Toronto did a stirring business.

"Your soul to the devil!" said young Jack to me. "Let us hokey down and see the neck stretchers." The hangings had been set for ten o'clock in the morning; but an hour ahead of time there was a good-natured throng of thousands jostling one another before the grim prison walls. It was the sort of crowd one sees nowadays at a big country fair. Neighbors were greeting neighbors, and joshing over local affairs. Men carried their liquor well in those days; and, of course, mothers had brought their young children in their arms. What else could the poor dears do?

A stir among the men on the prison walls told us the death procession was coming. A hush of awed expectancy fell upon the great throng. And this gaping crowd, stirred with thoughts of human slaughter, was standing in the most humane and tolerant colony Europe ever established beyond the seas! New England had been developed by

the labor of convicts transported to be sold as serfs on an auction block. We are often told of the Mayflower landing the Pilgrim Fathers on the Plymouth Rock. Oh yes! But we hear little of the fact that for a century every other merchant ship touching a New England port landed a cargo of convicts on the Pilgrim Fathers. The outposts of these colonies were pushed westward by rough frontiersmen who murdered as they went on frolics of their own. The southern colonies were developed by slave labor, and the full wages of that slavery have not yet been paid. One of the first laws passed in Upper Canada in 1793, provided for the abolition of slavery; and in dealing with another human, there has never been a time or place in Canada, save in her wretched prisons, that any man could with impunity make his will a law to itself.

You ask what brought thousands of people together to see such a terrible sight as a double hanging; and I answer you that fifty thousand of the likes of you would turn out any morning to view a well-bungled hanging to-day. A murderer is a celebrity; and people run open-mouthed to see a celebrity, to hear him speak and see him decorated—or hanged—as the case may be. Every crowd hungers for excitement and is looking for a thrill. Every mob is by nature cruel and blood-thirsty. With all his clothing and culture, man remains a savage, a fact that becomes obvious when a few of them run together.

The breath going out of thousands of throats made a low murmur as the murderer, William Turney, in his grave clothes and plumed, came into public view and stoutly mounted the stairs of the scaffold platform. A priest walked beside him. Behind them strode a hangman, who was closely masked.

It was a matter of good form—and decently expected in those days—that a murderer make a speech and exhort the public. A lusty cheer went up as William Turney stepped smartly forward to make his speech from the gallows. His was an Irish brogue; and his voice was loud and clear.

## THE SHOW GOES ON!

30 DAYS LATER

Try a can of Instant Postum. If at the end of 30 days you do not feel better, return the can and we will refund the price of the Instant Postum, plus the postage. Consumer Service Dept., General Foods Ltd., Cobourg, Ont. PF-37

"Die—like—a man!" shouted loud-voiced Michael, the smuggler.

Turney had been working the fall before as a journeyman tailor at Markham Village. He dropped into a local store one dark night to get a jug of whiskey to take to an apple-paring bee. As the clerk, McPhillips, was bending over the liquor barrel, Turney stove the man's skull in with a hammer; and then rifled the till. He turned off the spigot, blew out the candles, closed the wooden shutters, and quietly went home to bed. The dead body was not found till the morning after. No one had seen Turney abroad the night before. He came under suspicion the next day because he rode to Toronto on a borrowed horse, and bought himself for cash money a pair of boots and a leather jacket. But that, you'll agree, was not hanging evidence.

Turney, however, needed money for his defence; and while lying in gaol at Toronto he got a letter smuggled out to his wife. The poor simple woman was no scholar; and she asked a neighbor to read it for her. The letter told her the sack of money was hidden under a loose board in the floor of their backhouse at Markham Village. He bade her get the money and give it to the lawyer man. So the damaging evidence leaked out. How much wiser to have let the solicitor's clerk visit the privy!

On the scaffold Turney made a rousing speech. He shouted to us that he had been a British soldier in his day, and was not afraid of death. Turney thanked us all kindly for the compliment of coming to his hanging. It was sorry he was for killing the poor man, McPhillips, who had never hurt him and had treated him as a friend. The crime, he told us, had not been planned, but was done on the spur of the moment. The devil had tempted him; and he fell. He had run home that dark night in a terrible fear. The wind in the trees sounded like his ears like the groans of poor tortured souls in hell. Hanging, he told us, was what he deserved. Let it be a lesson to us all.

(To Be Continued)

## Little Helps For This Week

Wherefore thou art no more a servant, but a son, and if a son, then an heir of God through Christ. Gal. 4:7

Not by the terrors of a slave God's sons perform His will. But with the noblest powers they have His sweet commands fulfil.

Every one of us has at all hours duties to do, and these he can do negligently like a slave, or faithfully like a true servant. Do the duty that is nearest thee, that first and well, all the rest will disclose themselves with increasing clearness and make their successive demand. Were your duties never so small, set yourself with double and treble energy and punctuality to do them hour after hour, and day after day. Wherever we are, either with people or alone, we have our daily round of work, and that which makes one man to differ from his neighbor is not what things he does, but his manner of doing them.

Half of the 56 signers of the Declaration of Independence were college-bred; 16 had "classical" educations; two were instructed entirely by tutors, and 16 had very little learning.

During the first six months of 1896, about 37 per cent. of the accidents at railroad crossings resulted from drivers of motor vehicles running into the sides of trains.

## Stony Plain and District.

Mr Eric Heichen, the well-known sport, now of Onoway district, was a visitor in Stony on Saturday.

Mrs A P Anderson is visiting friend at Portland, Oregon.

Stony's senior girls' basketball team held a whist drive in Kelly's Hall Monday night, and had a good attendance. Winners: Ladies—Mrs Gates and Mrs F Goebel. The 3-story Coronation cake was won by Mrs W Kelly.

Baron's Blueberry Orchestra will hold a dance in Kelly's Hall, Friday, April 23d.

There will be Lutheran services in English in Stony Plain next Sunday evening, the 18th. Rev H Kuring, pastor.

The grain elevators in Stony Plain and at Spruce Grove and Carvel have gone on their early closing schedule for this season. This means that these elevators will close at 12 noon on Saturday until Sept. 1.

BUTTER AND EGGS WANTED AT The Royal Cafe.

## Spruce Grove News.

Mr Charles Ries, who has been visiting here with his son Mr A W Ries, is leaving next week for his home in Vancouver. Charlie has sold his apple orchard, and moved to the city.

Mr Stitt is said to intend stocking up on hardware. An Edmonton hardware firm has rented the premises formerly occupied by the Grove Hardware Co.

Mr Harry Brox has under consideration an offer from Trail, B.C., to play on the senior baseball team there, this season.

Mr J F Forbes left Monday for Manola, where he will open a hardware store.

Some excitement was caused at tea time on Monday when a spirited team of horses belonging to a farmer from north of town left Railroad avenue, heading east. They were stopped before they had got to the church corner.

The two big graders at present at work on the Highway, are getting the roadway back into shape for the summer traffic.

## Municipal District of Inga No. 520.

### Public Notice

IS HEREBY GIVEN THAT THERE has been introduced in the Council of the Municipal District of Inga No. 520 an Amendment to Bylaw No. 11 which Bylaw No. 11 provides for the hospitalization of sick residents of the Municipal District of Inga No. 520, excepting therefrom all that portion of the Municipal District included in the Onoway Municipal Hospital District No. 7 consisting of all of sections 25 to 30 inclusive in Township 53, Ranges 1 and 2, West of the 5th Meridian.

The Amendment is for the purpose of providing for the hospitalization of sick residents of the Municipality in whole in terms of existing Agreements.

Which Agreements provide for the payment by the Municipal District to the hospitals entering into the Agreement the sum of seventy-five

cents per day for public ward patients. The payment of such fees to relieve the Municipality from all or any further claim or liability for such hospitalization of such patients.

Copy of the Bylaw may be seen at the following places: Municipal Office; Hestherdown P.O., Onoway P.O., Stony Plain P.O., and Carvel P.O. And further that unless within thirty days from the Publication of this Notice at least fifteen per cent of the proprietary electors of that portion of the Municipal District of Inga No. 520 comprising all of sections 25 to 30, Ranges 1 and 2, West of the 5th Meridian, do petition the Council to submit such Amendment to the Bylaw to a vote of the proprietary electors of all of that portion of the Municipal District of Inga No. 520 comprising all of sections 25 to 30 inclusive in Township 53, Ranges 1 and 2, West of the 5th Meridian.

The Council will proceed to pass the Amendment to the Bylaw.

DATED at Duffield this 31st day of March, 1927.  
JOSEPH BEST,  
Secretary-Treasurer.

## The People's League.

Several prominent names have been mentioned as possible leaders of the People's League of Alberta. The League wishes to point out that these reports are purely speculative. By unanimous agreement of the temporary Executive, the man who will ultimately take his place at the head of the movement will be selected only when an open convention representative of the entire membership is held.

The Calgary Herald recently reported a meeting of the Calgary Conservative Ass'n as in favor of delaying decision on future political activity until the Provincial Executive might

with Thelma Todd, Lyle Talbot, H. B. Walthall, Tully Marshall, Captain Frank Hawks.

Added Attractions—Gypped in Egypt, Songs of the Hills, Thrills of Real Life.

Adults 25 cents. Children 12 and under, 10c.

## Hearing from the Folks Back Home.

The resignation of Premier Aberhart as representative of High River-Okotoks Riding is called for in a resolution passed April 8th by High River Social Credit Group. The resolution reads:

"Whereas we of Group No. 2, High River, are 100 per cent Social Credit, and whereas our M. L. A., Mr Aberhart, has been our representative for the past 19 months and has received several delegations, some in a disdaiful manner, and has been in his constituency only once, we feel very much neglected, and believe that a member who has the sympathy of his people at heart would be more suited to our needs;

"Therefore be it resolved that we go on record as asking him to resign and make way for some other person who will take more interest in our constituency."

be consulted on the advisability of supporting the People's League.

The Hanna Herald denies a report in the Calgary Albertan that 95 p. c. of those who attended the People's League meeting at that point, left the meeting before the election of officers, of the Hanna branch of the League took place. Hanna Herald reports that more 30 persons joined the League and paid membership fees at that meeting, and that Hanna branch of the League includes among its most active members, many former social crediters.

From Greenlawn, Alberta, comes a letter to the Edmonton office of the People's League, showing the trend of thought among our country residents. The correspondent says: "Do you think it would be possible for the sound thinking men of Alberta to stop barking at the Banker, the Storekeeper, the Doctor, the Lawyer, the Farmer and everyone in general, long enough to get together and see if they cannot find the cause of our troubles. When they have found the cause, they can surely find the solution."
